## Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is the inclusion of the limitation of grafting wound healing factors into a porous pad in all of the claims. Applicant's explanation of criticality of the grafting step provided in the interview of 1/6/06 and restated in the response filed 3/20/06, specifically page 4, paragraph 4 through page 5, paragraph 2 and the explanation that the claimed process would not result from the combined applied teachings in the prior art was persuasive. The claimed method for wound healing including the combination of a grafting wound healing agents into a porous pad of a negative pressure system in combination with a vacuum system as claimed is neither anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
